

Light Duty Rescue

Model LR0964 Heavy Light Rescue

Rural Retreat Volunteer Emergency Service

Rural Retreat, Virginia

Rural Retreat is located along I-81 in the southern end of the Shenandoah Valley. The 14-ft body is mounted on a Chevrolet C5500, four-wheel drive chassis with a 21,500 lb. GVWR. All roll-up doors with zero pass-thru space loss provides maximum storage capability, especially when coupled with the recessed adjustable shelf tracks and LED strip lighting recessed into the side walls.

A 12,000 watt PTO generator provides power for NightScan light tower, two 750 watt tripod flood lights, cord reel and hydraulic rescue tool power unit.

10,000 lb. receivers are provided in the left and right rear wheelskirt panels and under rear bumper for operation of a 9000 lb. portable winch.

All emergency lighting is Whelen LED with full upper and lower zone compliment. All tail lights, clearance lights and compartment lights are LED. A LED traffic advisor controlled through the console mounted VISTA color monitor protects the rear on the busy interstate.

Rear extrication tool compartment with two hydraulic reels.

Two 65" deep slide-out tool boards in the front and transverse tunnel compartments for stokes basket and two long back boards enhance storage convenience.
